

**YOYAKU**  
BARCELONA STORE

# STORE OPENING ON JUNE 15, 2026

> *Yoyaku opens its first record store outside Paris in Barcelona*

**Located in Sant Martí, the shop brings together new and second-hand vinyls, Yoyaku's Paris curation, independent Barcelona labels and a team already rooted in the city.**

Some cities become part of a label before an address appears. For Yoyaku, Barcelona is one of them. For more than ten years, the Paris-born label, distributor and record store has returned to the city through parties, artist showcases, record projects and the yearly energy of Off Week. The new shop gives that story a door of its own.

Inside Bridge 48, a music hub that brings together studios, education and events, Yoyaku Barcelona Store is built first as a place for records: new releases and second-hand finds, listening, digging, conversations at the counter and discoveries that pass from one collector to another.

The opening selection reflects this double movement. Yoyaku brings the Paris shop's catalogue memory, its taste for deep electronic music and its network of independent labels; Barcelona brings its own rhythm, with dedicated shelf space for local labels / distributions and Spanish records while bringing from Paris its French Touch. House, tech house, techno, electro, minimal, ambient and the spaces in between will sit side by side, with the local selection treated not as a corner, but as a central part of the shop.

Members of the Paris team bring the shop knowledge built over years in France. The result is not a Paris store copied into Spain, but a team listening to the city while carrying Yoyaku's record-store culture with it. Opening week will also welcome Yoyaku's yearly Barcelona gathering. Yoyaku Off Barcelona takes place on [Friday 19 June](#) at Hola Club, Cala Vallcarca, Sitges, with Sonja Moonear, Saoirse, Tomas Station, Mari.te, Lis Sarroca, Hugo Martinez and Shakèd. Around Off Week, intimate in-store sessions will be reserved for Yoyaku Barcelona event ticket holders.

Earlier in 2026, Yoyaku also announced its Berlin step around the OBJECTS pressing plant and Kurtezy. Barcelona belongs to the same year of movement, but tells a different part of the record story: the moment records come back to the street, to the shelves, to the people who play them and the people who find them.
